Student from UBC studying Political Science and Computer Science. Interested in using technology to solve real-world problems. Currently doing an 8-month internship at LoginRadius, a CIAM platform, where I develop using a lot of web technologies.

Work Experience

Software Engineer Intern

LoginRadius (Jan - Aug 2019)

Develop client-side integrations using JavaScript. Integrate with 3rd party applications by connecting multiple REST APIs using NodeJS. Build API website with jQuery, PHP, and JavaScript. Test and maintain LoginRadius API library.

Program Lead

Canada Learning Code (July – Aug 2018)

Designed modules to follow core curriculum (game-design, web and digital design and entrepreneurship). Responsible for the flow of the experience, being the main host, daily/weekly agendas and logistics of camp. Regularly prepared and delivered presentations, conducted team huddles, resolved issues quickly and professionally, and supervised groups of up to 30 learners.

Education

University of British Columbia - B.A., Computer Science, Political Science.

Projects

Database Management System

github.com/samiragadri/ski-resort-dbms

Built a full database application from scratch for staff and customers of a ski resort hotel. Developed in PHP to connect Oracle database to frontend. Wrote SQL data manipulation queries (insert, delete, update, joins, aggregation, view) using Oracle's SQL*Plus.
